

### CorBusiness Applications I

#### DURATION

- ▶ 2 days

#### PREREQUISITES

- ▶ Attendees should be comfortable with basic Windows functionality

#### RESPONSE

“I didn’t realize CorVu had so much to offer. We definitely have underutilized this for far too long. Looking forward to going home and creating effective and useful management reports.”

—Tyler Tracey, senior accountant, Tensys Medical, Inc.

“[The best part of the course was] gaining a better understanding between the query, DynaMart and quick report. I hope to move away from Access and toward CorVu.”

—Shawn Elsacla, data reporting manager, Educaid/Wachovian

“Excellent instructor—very knowledgeable and kept our attention”

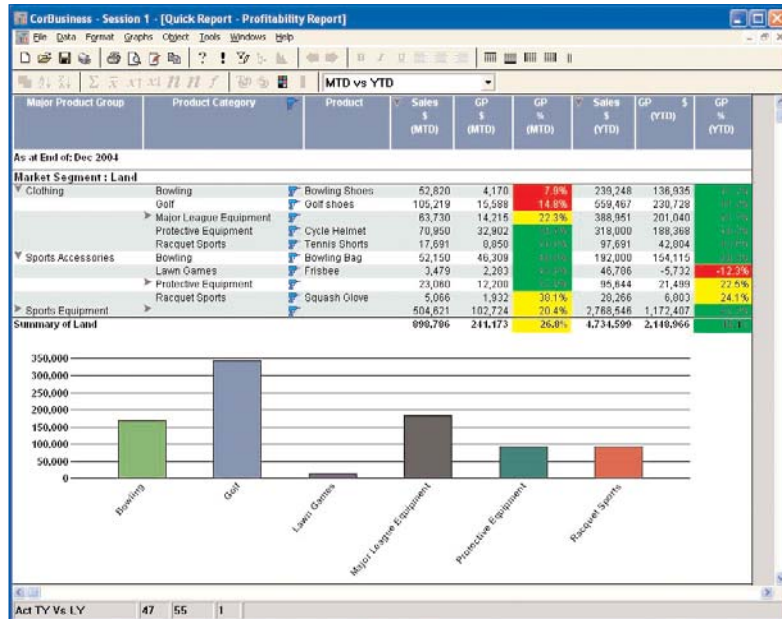

—Gretchen Kusow, senior staff accountant, Arizant Healthcare

#### Description

This course is designed to give a variety of CorVu users a sound technical understanding of the CorBusiness product.

#### Topics covered

- Creating basic queries
- Modifying queries
- Creating basic graphs
- Manually created drill-down scenarios
- Automatic drill-down scenarios
- Aggregated queries
- Creating Quick Reports
- More on Quick Reports
- Importing and joining DynaMarts
- Pivot tables
- Executive alerts

In the Applications I class, you’ll learn how to create a Quick Report, like the one above, with color-conditioning on value columns and the capability to drill down to lower levels of detail.
